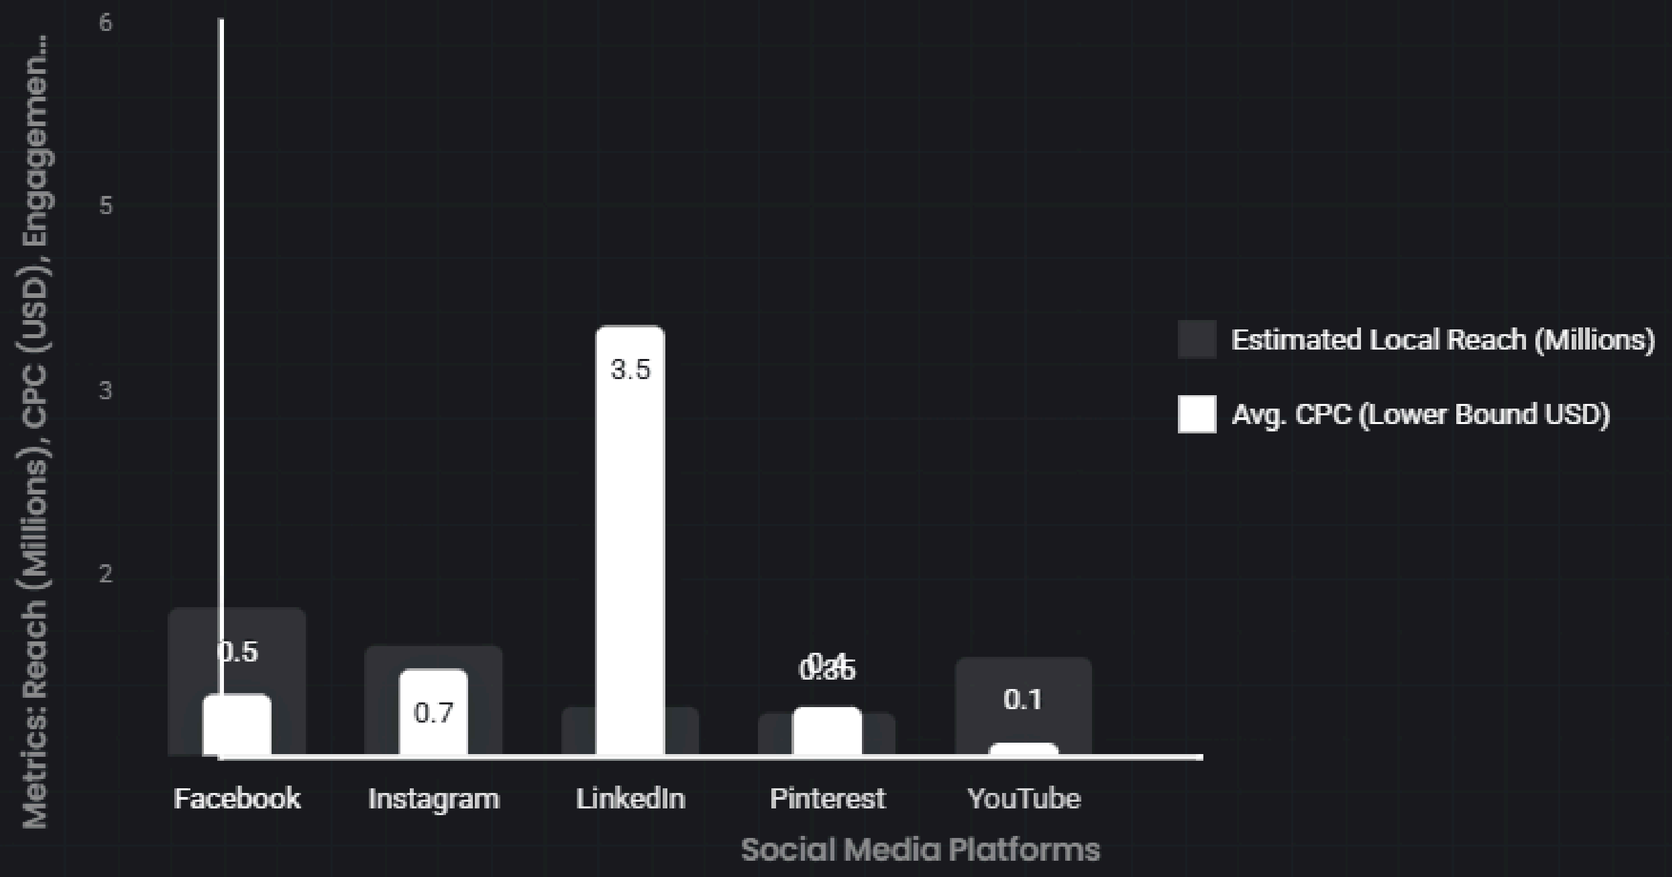
Why Social Media Marketing Matters Now: Capturing Your Customers Before Your Competitors Do

Comparing Reach, Cost, and Engagement Across Leading Platforms for SMB Growth



Facebook and Instagram lead in audience size with moderate CPCs, ideal for broad brand awareness.

LinkedIn's higher CPC aligns with stronger B2B lead quality despite smaller reach.

Pinterest offers niche, visually-focused audiences at lower advertising costs.

YouTube provides cost-efficient video engagement, enhancing brand storytelling with lowest CPC.

Act quickly: SMB competitors are actively investing, making early social media marketing vital for lead capture.
